

Observing LML Patterns

- Children's work such as paintings can reflect their strongest patterns.

Symmetry reflects a high score in Sequence

The use of different colours shows a high score in Confluence.

Technical Reasoning – Different materials were used and the birds needed to be cut out and stuck.

- This painting has detail which reflects a high score in Precision.
- The unusual use of colour for the sky also reflects a high score in Confluence.

Sequence - note the birds and houses in a row.

Use of materials reflects Technical Reasoning .
Confluence is also noted.

- The different ideas in each section reflect Confluence and Sequence.
 - Precision is also reflected through the detail.

Precision and Confluence however an amount of Sequence is visible through the mountains at the back.

Confluence - the original ideas and use of colour.

Sequence (symmetrical), Precision (detail) and Confluence (original).

Sequence –note a certain amount of symmetry and clarity.

Precision due to the detail noted.

Sequence –everything is drawn in pairs.
